PRESIDENTIAL YEAR DOES NOT AFFECT FURNITURE TRADE

M. Aaron Hatcher From Grand Rapids, Mich., Tells Why the Order Will Be Placed for Spring Trade.

"The fact that this is Presidential election year didn't bother us with regard to our buying for spring business during our trip to the wholesale furniture markets," said M. Aaron of the Aaron Company to a reporter for The Courier today. Mr. Aaron has just returned from a two-weeks' buying trip to Chicago and Grand Rapids, Mich., where he was accompanied by M. Smith of the Aaron Furniture Co. of Greensburg.

"Presidential year," pursued Mr. Aaron, "doesn't have the effect on business that it used to have. There seems to be a general feeling that no matter what party wins at the polls, no great changes will be made, and therefore what capital firms have done anything else.

"So we bought heavily and in more enormous quantities than ever. The new furniture designs for spring warranted heavy buying because they are totally original and striking; yet in perfect good taste.

"The wholesale furniture manufacturers with whom we placed our heavy orders, were thunderstruck at the quantities we bought. They had no idea that the territory of Western Pennsylvania could take orders of so much high class merchandise. They expressed themselves surprised at the huge order the Aaron stores enjoy. They told us our orders were larger and embraced finer goods than the average order from stores in very large cities.

"We closed several deals that will please our customers, creating an exclusive agency in this territory for several more famous brands of furniture. These will be added to the already big line of exclusive goods we carry and will make a big showing. In fact, our patrons will be enabled to see the cream of the world's furniture product in the Aaron stores to a greater extent than in any previous season."

"What is your impression as to the outlook for business conditions in general?" Mr. Aaron was asked.

"If I am any judge," he answered, "big business is going to start with a rush this spring and continue uninterrupted for a long time to come. A feeling of confidence seems to prevail throughout the wholesale trade and this feeling communicated itself to the retail merchants we met on our recent trip. It strikes me that the year 1912 is going to be a 'bummer.' We're ready for it, at any rate, as it won't be long before the goods we bought will begin to arrive at our warehouse."

FOR SICK HEADACHE, SOUR STOMACH, LAZY LIVER OR SLUGGISH BOWELS

Turn the muscles out—the headache, the indigestion, the sick, sour stomach and foul gases—turn them out tonight and keep them out with Cascarets.

Millions of negligent women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach. Don't put in another day of distress. Let Cascarets cleanse and regulate your stomach; remove the sour, indigestible and fermenting food and, that misery-making gas; take the excess bile from your liver and carry off the decomposed waste matter and poison from the intestines and bowels. Then you will feel great.

A Cascaret tonight will brighten you out by morning—a 10-cent box means a clear head and cheerfulness for months. Don't forget the children—each little maiden needs a good, gentle cleansing, too.

Knowing the Great Man. Mr. Browning himself once told me how important and interesting he thought it that the young should have as it were, landmarks in their lives by at least seeing great men who belonged to an earlier generation.

"Once," he said, "I was walking in the streets of Paris with my son, who was then a little boy. We saw an old man approaching in a long, loose, rather shabby coat and with a stooping, shuffling attitude and gait. 'Touch that man as you pass him,' I whispered to my little son. 'I will tell you why afterward.' The child touched him as he passed. 'He said to him, 'Now, my boy, you will always be able to remember in later years that you once saw and touched the great Beran. Famous Characters From Dickens' Books Come to Life On Centenary of Birth of Great English Master of Fiction

Charles Dickens was born February 7, 1812, and great preparations are being made in the United States as well as in England to properly celebrate his one hundredth birthday. One method of commemorating the date that has aroused much interest is the proposition to raise \$100,000 to be used as a trust fund for the benefit of five granddaughters of the great master of prose. These granddaughters are all in poor health. Two of them are working stenographers, a calling that Dickens followed at one time, and another one of them has been compelled to give up the work because of ill health.

Admirers of Dickens in England have agreed to raise \$50,000 and have asked Americans to raise the same sum. Joseph H. Choate, chairman of the American executive committee of the Dickens centenary fund, has issued an appeal for contributions in

which he says that Dickens was a practical man; that he believed in substantial evidences of love—real helpfulness. As a cogent reason why Americans who have enjoyed Dickens' work should contribute to the fund the appeal says: "Had Dickens been protected in the enjoyment of American royalties morally due him on his books none or his family would be in need. We did not grant him that protection. This is our chance to make amends. It will not come again."

In London recently a monster benefit was given for the fund, and the most prominent English actors appeared as characters from Dickens' books. The thousands who knew Mr. Pickwick were delighted with the joyful old gentleman as portrayed by Lawrence Grossmith, and the Ufiah Heap of H. C. Pellissier was all that one's fancy desired. Pathetic Oliver Twist as portrayed by Miss Ethel Allandale won the hearts of all. Miss Unity Moore was shown as Dolly Varden in the Maypole Inn scene, with her friends Miss Miggs, Simon Tapscott and the maid at the Inn beside her. Nearly \$10,000 was added to the fund by the benefit.

THE ONLY SURE RHEUMATISM CURE ON EARTH.

If you suffer from rheumatic agony or have a relative or friend who is tormented, read the following wonderful letter, then go to A. A. Chittie and get a 50 cent bottle of RHEUMIA. He sells it on money-back plan.

"One year ago I had a most severe attack of rheumatism, leading over nine weeks. Two bottles of RHEUMIA cured me so completely I have never had the slightest return of the disease. I have a friend, an old lady, living here, who had rheumatism for more than a year, and she too was cured. Her joints were all stiffened and swollen, and she had previously tried everything for rheumatism she had ever heard of." George M. Ross, 308 N. Warren Ave., Saginaw, Mich., July 27, 1911.

RHEUMIA starts to drive the acid out from your system within a few hours after the first dose. It acts on kidneys, stomach, liver and bladder and brings blessed relief in one or two days.

HIS MILD REPROOF.

The Mate Let the Captain Down Easy About His Mistake.

The skipper was a man who had a good opinion of himself and his notions. He had pulled through shipwreck, mutiny and other perils of the deep, but he came a cropper once. For one of his voyages he had shipped a boatswain's mate who bore something of a reputation.

One day the skipper ordered him aloft to examine a sail on the royal yard.

"That's safe, cap'n!" protested the boatswain's mate. "The foot ropes has got to be fixed first."

"Do as I tell you," thundered the captain. "The foot ropes are all right. I know they are."

Five minutes later he came tumbling down through the rigging from the top of the mast, a distance of over 100 feet.

With a bang he landed on the belly of the mainsail and bounded into one of the canvas covered boats.

The sailors, thinking him dead, crowded about him in a circle.

To their amazement he sat up. His eyes wandered vacantly about until they rested on the leathery face of the skipper, when they lighted up with intelligence.

"Cap'n," he said slowly, "you was mistaken about them foot ropes."

KANSAS CELEBRATES ITS 51ST YEAR AS A STATE

Samflower Soins Have Gained to Great Lengths in Advancing Their Prospects.

Special to The Courier.

TOPEKA, Kan. Jan. 29.—In recognition of the fact that today marked the fifty-first anniversary of the admission of Kansas to the Union and with a further view of calling public attention to the growth and prosperity of this section, the citizens of the Samflower State today started one million souvenir post cards on their journey in the mails to every community in the United States and to every civilized country of the world.

Probably no other movement so widely spread in its scope was ever planned for advertising a State. The Kansas post card bears a picture of a woman sitting on a log with her left arm encircling a bunch of sunflowers. The right hand holds a mirror face outward. On either side are pictured fields of grain and the industries which predominate in Kansas. Beneath the theme is the State seal.

Checking Accounts No. 3

Convenience

The ease with which a bill can be paid by check, whether the party to whom payment is made lives in Connelville or some other town or city, makes a checking account a great convenience. No bother about the right change, no need to hunt up your creditors. No money order to buy—Your check is, in itself, a Money Order—You simply write it and mail it, and when the paid check comes back to you it is an indisputable receipt.

Another convenience of a checking account is that any checks or drafts you receive will be cashed or credited to your account by the bank. In fact, the bank becomes, to a certain extent, your agent in all financial matters and is glad to advise and assist you.

This bank cordially invites checking account and next week we will tell you who should have such accounts.

According to reports from the Flood City, Johnstown is due to lose its franchise in the Central league. Johnstown always has been a live sporting town in recent years, but found that it is unable to support basketball this year. The management of the Johnstons came to the front at the close of last season and the first of this season, and bought some of the best players in the business. Their efforts have been fruitless for this season, the Jaws have been playing championship ball and they bid fair to take down their first Central league pennant.

With the growing success of the team, however, the interest among the fans has been fading, until the Jaws have been playing in the past few weeks, to practically empty seats. Washington is said to be the "lucky" town.

It is said that repeated offers have been received from eastern clubs for the transfer of the entire Johnstown team but they have been turned down to permit the taking up of the Washington deal.

In the last seven or eight games the Johnstown club has dropped \$500 or \$600. It is said that one more game will be given Johnstown to support their team and if they fail to respond, that it will sound the death knell of the professional game in the Flood City.

South Side has suffered another defeat. Henschel is reported to have gone to Troy, in the New York State league, to play for the season against stealing players. When the season started and South Side induced the Kingston team to "jump," The Courier inquired against the move. Instead of answering, content jumping the league directors should use every effort to form a working agreement with the other leagues to protect themselves against the jumpers.

The situation in the league is such that there is a need of better protection for the club owners. The days of high salaries have passed. Not a team in the league is making money this year and it is only a matter of time until the game will slow down materially. Some of the clubs can stand the poor Johnstown will hardly last another year if it finishes this season. South Side is a losing proposition. The league next year will probably be made up of smaller towns. The game doesn't last in the big towns, and it is a question whether the smaller communities will make a sufficient interest for any great length of time.

There might be hopes of a prosperous season with a circuit made up of Charlottesville, Connellsville, Charlottesville, Unlabeled, Washington, Unlabeled and another town. To be successful, however there will have to be an adjustment of salaries.

The passing of White is to be regretted. Steve "Cento back" with a vengeance this year but he needed steady work to keep in the best of condition. There was no chance on the Cokers, but there is no reason why he cannot connect with some other team where he can have a chance to shine. Well, Steve is only one of the old guard that will probably pass away with this season. Others will likely be among the missing next year.

Connellsville has another hard schedule this week. Three games are called for in as many nights, the fourth game being played with one day's rest. Tonight, the Cokers play at Charlottesville. No matter how easy the Cokers are on Connellsville's floor, they have always had the better of it on their own floor. Unlabeled plays their semi-weekly football game at Connellsville on Tuesday and Johnstown gets us at a bad time on the following day. On Friday South Side finishes up the week here.

The following from the Fairmont Times, about the coming attraction between the Fairmont A. M. C. A. and Unlabeled to be played at Fairmont Feb. 2:

"The locals hope to make a fine showing in the first half of the game as the association rules will govern this period. They hope to secure a lead then sufficient to carry them over the second half, under professional rules, which will be strange to them."

Unlabeled is getting peevish over President Lethend and claims to be getting the worst of it in the matter of referees. The principal objection seems to be against Allen's assignments to Connellsville. Unlabeled says Allen is the most competent referee in the league. He says he never has steady a job in Unlabeled as Allen gets him. The Cokers will be quite satisfied to have called referee elsewhere.
